Job Description

Keefer Haz Mat Services Ltd. based in Cranbrook, BC is seeking an eligible or currently certified industrial hygienist (CIH), registered occupational hygienist (ROH), or Canadian Registered Safety Professional (CRSP) to join our diverse team of experienced professionals. The ideal candidate will hold or be eligible for designation as a CIH, ROH or CRSP; however, individuals with the right combination of education and experience will be considered.

Duties & Responsibilities

- Management and coordination of projects;
- Field work including data and sample collection for hazardous material surveys, risk assessments, indoor air quality monitoring and environmental site assessments;
- Develop management practices and mitigation strategies;
- Preparation of reports; and,
- Enhancement of client relationships and development of new business opportunities.

Qualifications**Education & Certifications:**

- Degree or diploma in occupational health and safety/hygiene, engineering, building sciences or equivalent experience;
- Membership or eligibility in relevant professional associations (i.e., CIH/ROH/CRSP);
- Class 5 driver's license with good record.

Specialized Knowledge:

- Thorough understanding of the application of occupational health and safety regulations, especially as they relate to industrial hygiene and hazardous materials;
- Planning and conducting surveys and collecting samples for the purposes of abatement project planning;
- Confined space entry; and,
- General knowledge of building systems and construction.

Skills & Abilities:

- Well-developed multi-tasking skills, rapid-learning, innovative and creative;
- Lead and work effectively with others; and
- Problem solve and make new plans as circumstances dictate.

To apply please submit a cover letter and resume to lizzy@keefereco.com. The position will remain open until filled.
